

An Introduction to Machine Learning

Sheeraja Rajakrishnan

September 25, 2025

Objectives

By the end of this lecture...

Students will have a basic understanding of

- what is machine learning
- why we need machine learning
- where machine learning is used in daily life

What is Machine Learning?

What is Machine Learning?

Machine learning enables computers to...

- 1 self-learn from training data

What is Machine Learning?

Machine learning enables computers to...

- 1 self-learn from training data
- 2 detect patterns from data for learning

What is Machine Learning?

Machine learning enables computers to...

- 1 self-learn from training data
- 2 detect patterns from data for learning
- 3 learn from experience without human interference

Why Machine Learning?

Why Machine Learning?

- 1 Automate tasks

Why Machine Learning?

- 1 Automate tasks
- 2 Adapt to new data

Why Machine Learning?

- 1 Automate tasks
- 2 Adapt to new data
- 3 Reduced human input

Why Machine Learning?

- 1 Automate tasks
- 2 Adapt to new data
- 3 Reduced human input
- 4 Works on large data sets

Why Machine Learning?

- 1 Automate tasks
- 2 Adapt to new data
- 3 Reduced human input
- 4 Works on large data sets
- 5 Can be faster

Why Machine Learning?

- 1 Automate tasks
- 2 Adapt to new data
- 3 Reduced human input
- 4 Works on large data sets
- 5 Can be faster
- 6 Can be more accurate (if trained properly)

Types of Machine learning Models

Types of Machine Learning

1 Supervised

<https://www.javatpoint.com/supervised-machine-learning>

<https://images.spiceworks.com/wp-content/uploads/2022/04/04094802/4-12-1.png>

Types of Machine Learning

1 Supervised

- spam emails, sentiment analysis

<https://www.javatpoint.com/supervised-machine-learning>

<https://images.spiceworks.com/wp-content/uploads/2022/04/04094802/4-12-1.png>

Types of Machine Learning

- 1 Supervised
 - spam emails, sentiment analysis
- 2 Unsupervised

https://link.springer.com/chapter/10.1007/978-1-4842-4961-1_7

<https://images.spiceworks.com/wp-content/uploads/2022/04/04094802/4-12-1.png>

Types of Machine Learning

1 Supervised

- spam emails, sentiment analysis

2 Unsupervised

- clustering, dimensionality reduction

https://link.springer.com/chapter/10.1007/978-1-4842-4961-1_7

<https://images.spiceworks.com/wp-content/uploads/2022/04/04094802/4-12-1.png>

Types of Machine Learning

- 1 Supervised
 - spam emails, sentiment analysis
- 2 Unsupervised
 - clustering, dimensionality reduction
- 3 Semi-supervised

<https://images.spiceworks.com/wp-content/uploads/2022/04/04094802/4-12-1.png>

Types of Machine Learning

1 Supervised

- spam emails, sentiment analysis

2 Unsupervised

- clustering, dimensionality reduction

3 Semi-supervised

- image classification

https://static.packt-cdn.com/products/9781785880513/graphics/B05137_04_005.jpg

Applications

Real-World ML Applications

<https://www.aiottalk.com/wp-content/webp-express/webp-images/doc-root/wp-content/uploads/2021/12/Real-World-Applications-Of-Machine-Learning.jpg.webp>

Conclusion

Conclusion

- 1 We discussed what is machine learning

Conclusion

- 1 We discussed what is machine learning
- 2 We discussed why machine learning is needed

Conclusion

- 1 We discussed what is machine learning
- 2 We discussed why machine learning is needed
- 3 We looked at some scenarios from our day-to-day life where ML is used

Thank You
